RE: APPROVAL WORK PLAN
R.A. #14

Mr. Jack R. Craig
Project Manager
U.S. DOE FEMP
P. O. Box 398705
Cincinnati, Ohio 45239

Dear Mr. Craig:

The purpose of this letter is to approve Removal Action Work Plan for Contaminated Soils Adjacent to the Sewage Treatment Plant. DOE has addressed concerns raised in our May 4, 1992 letter. From our phone call today, it is our understanding that initial sampling results indicate a larger area of uranium contamination which will result in more soils being removed than originally planned. This will require more time for removal so we can expect a revised schedule. Please keep us informed on this and any other changes in this removal action. If you have any questions please contact Tom Schneider or me.

Sincerely,

Graham E. Mitchell
Project Manager
